

2024 DEMONSTRATION REGISTRATION FORM

Strip-Tillage and Choppers will be our featured equipment for 2024. The demonstrations will be held each morning and afternoon on both days of the AgroExpo.

Each company demonstrating will be given 5 minutes to speak about their equipment prior to their demonstration. The Chopper demonstrations will be held each morning at 11am and the Strip-Tillage demonstrations will be held each afternoon at 2pm.

Additionally, we will feature your equipment write-up in the 2024 AgroExpo show guide. The guide is inserted into the July 15th issue of Michigan Farm News. Prior to publishing, we'll reach out to finalize the article details.

The cost to demonstrate will be \$200.00 per piece of equipment. Please complete the registration form and submit it along with payment. Space is limited so sign up early to secure your spot.
